START WRECK

CAST: Captain Smirk
Mr. Spike/Narrator (wears Spock ear and turns left or right as needed)
Dr. McCow
Yo Woman
Uharem
Snotty (speaks with an Irish accent)

PROPS: Star Trek costumes, blonde wig for Yo Woman, communicator (make-up compact), fake coins, globe, 4 chairs, Spock ear

NARRATOR: Space, the final frontier. These are the voyages of the Starship Second Prize. Its 5-year mission...

SNOTTY: Wait, wait, wait! Plot hole. The original series only ran for 3 years.

NARRATOR: All righty then. Its, THREE-year mission, blah, blah, blah, where no man has gone before.

YO WOMAN: (enters stage patting her hair) Make that WOMAN. Where no WOMAN has gone before. (leaves stage)

NARRATOR: (*shrugs shoulders*) Whatever. (*leaves stage*)

CAPT. SMIRK: Captain's log, star date 3456.7

UHAREM: Are you sure it's a log, Captain? Maybe it's just a stump.

CAPT. SMIRK: Somehow, Uharem, that doesn't have the same ring to it.

(*Dr. McCow enters stage in a panic*)

CAPT. SMIRK: What is it, Bag o' Bones?

DR. McCOW: He's dead, Jim.

CAPT. SMIRK: Who's dead?

DR. McCOW: I dunno. Some expendable crew member dies every week so I can say that line.

MR. SPIKE: That is highly illogical.
